ANNEXATION TREATY

Hawaii to Become a Part of These United States.

WILL SOON BE SENT TO SENATE

Only One Amendment to the Sugar Schedule of the Tariff Bill Acted on—Monster Belligerent Petition in the House—Will Interfere With Landing Supplies—Postal Treaty Signed.

WASHINGTON, June 15.—A Hawaiian annexation treaty will be sent to the senate soon after President McKinley returns from his southern trip, unless present intentions are changed. The treaty was prepared and fully agreed upon before the president left for Nashville. It is on the lines of the one negotiated during the last Republican administration, and withdrawn from the senate by President Cleveland.

The present condition in Hawaii, it is said, has much to do with favorable consideration of the treaty of annexation. The present government of Hawaii and the people who support it are very much concerned about the Japanese situation. Private information received by Hawaiians in this city is to the effect that the Japanese at any time may take some action looking to acquisition of the island. The advice officially received are of much the same tenor.

The sentiment in the senate seems to be that Japan in no way should control the islands or get foothold there. This argument has been used to prevent even notice of abrogation of the present treaty in the tariff bill. It is said that such notice might be followed by Japanese occupation and the islands could not be regained by the United States without a struggle. In this connection it is learned that the conversations among the most prominent Japanese residents of Hawaii, which have been reported to the representative of the islands in Washington, have been of a threatening character and that the American residents have more concern than has been shown in the published accounts. The officials at the state department steadfastly refuse to make any statement as to the negotiation of a treaty providing for the annexation of Hawaii and at the Hawaiian legation the same silence is observed. However, it is known that the treaty, though not yet signed, is drawn up ready for signature and as the president is fully aware of its scope there is no reason to doubt that he will authorize its signature.

In this case it is expected that the document will be sent to the senate for its action very soon, even within a week it is said in some well informed quarters. If this be the case it may be taken for granted that the president has taken steps to assure himself of a favorable reception for the treaty in the senate and to guard against such a mishap as befell the arbitration treaty last session.

FIFTY-FIFTH CONGRESS.
Lindsay Amendment to Sugar Schedule Defeated—Monster Petition.
WASHINGTON, June 15.—The senate debate on the sugar schedule of the tariff bill proceeded yesterday with only one diverting incident to relieve the monotony into which the discussion has lapsed. This was the sharp exchange between Mr. Hoar of Massachusetts and Mr. Tillman of South Carolina. Mr. Tillman again referred to published charges in connection with the sugar schedule, and asserted that the senate would stand convicted before the American people if it failed to investigate the charges. Mr. Hoar calmly and impressively impelled this statement, his tone and language being calculated as a rebuke. Mr. Pettigrew of South Dakota spoke in favor of his amendment to place on the free list articles controlled by trusts. The only rollcall was on Mr. Lindsay's amendment to place all sugars on the same basis. This was rejected, 26 to 29.

Monster Petition in the House.
The house yesterday adjourned until Thursday after a session that lasted 45 minutes. Before the session began the hub of a wheel wound round with a monster petition said to contain 6,000,000 signatures appealing to congress to recognize the Cuban insurgents as belligerents was wheeled into the space in front of the speaker's rostrum. It had been in circulation throughout the United States for about six months and was presented to congress by Representative Sulzer of New York.

Will Interfere With Landing Supplies.
WASHINGTON, June 15.—Dr. Wyman, the surgeon general of the marine hospital service, has received information that the Mississippi state board of health threaten to interfere with the transportation of supplies to the government quarantine station at Ship Island. Recently the treasury department declined to accept bills of health furnished by the state board as sufficient, especially as a government station, fully equipped, is located at that point. The matter was under discussion at the treasury department and it was decided to stand by its former action.

Indiana Postmasters.
WASHINGTON, June 15.—Indiana postmasters were appointed yesterday as follows: Avila, J. N. DeCamp; Belmont, T. W. Mater; Cateract, Harvey Miller; Chili, J. W. Detrow; Culver, Henry Speyer; Doolittle Mills, Amanda Burr; Fordville, T. W. Gardner; Lakeville, I. W. Moon; Russellville, J. R. Whitson; Smyrna, W. Tichenor; State Line, William Jones.

Postal Treaty Signed.
WASHINGTON, June 15.—The last work of the postal congress was done today when a plenary session was held to sign the general treaty which takes effect on Jan. 1, 1899.

Coloring Butter Prohibited.
SPRINGFIELD, Ill., June 15.—Governor Tanner has signed the bill preventing the coloring of butter or imitations of butter.

LABOR MATTERS.
One Hundred Men Strike Against a Reduction of Wages.
NEW HAVEN, June 15.—On the announcement yesterday of a 10 per cent general reduction of wages at the Worcester Cycle shops in Middletown, Conn., 100 men went on strike. There was a reduction of wages some time ago at the shops which give employment now to about 400 hands, and to about 700 when running on full time.

Notice at Cotton Mills.
LAWRENCE, Mass., June 15.—The 500 operatives at the Methuen company's cottonmill were informed yesterday that they could accept a reduction of wages or the mill would suspend operations for the summer.

Iron Mills Resume.
PITTSBURGH, June 15.—The puddling, finishing and nail departments of Oliver Bros' mills have resumed operations after a week's idleness on account of lack of orders. Over 300 men were put to work.

Employment to Fifteen Hundred.
HUBBARD, O., June 15.—Stack No. 1 of the Andrews and Hitchcock furnaces will be placed in blast this week, giving employment to 15,000 who have been idle since February.

EXTREME HEAT.
MILWAUKEE, June 15.—Reports from various parts of Wisconsin show an extreme degree of heat yesterday, the average being in the neighborhood of 100 degrees. At Eau Claire the thermometer was 100 degrees in the shade. Five builders working on a school building were prostrated by heat. Two are serious cases. There were several cases of sunstroke at Janesville, where the thermometer registered 96 degrees.

Closed by Creditors.
QUINCY, Ill., June 15.—The Barlow Cornplanter works have been closed by creditors who are secured by mortgages on the real estate and personal property of the company. The claims of the secured creditors exceed \$35,000 while those of the unsecured creditors aggregate about \$30,000. The company expects to reorganize and resume business. The firm is capitalized at \$100,000.

Curled Hair Works Burned.
ST. LOUIS, June 15.—Fire destroyed the plant of the St. Louis Curled Hair company, at the foot of Brennan avenue, last night. Loss is placed at \$50,000.

Weather.
Indiana and Illinois—Thundershowers; probably slightly cooler.
Ohio—Partly cloudy weather.

CENTRAL STATE NOTES.
One result of the wet spring in Illinois will be an enormous hay crop. In seven years the population of Peoria, Ill., has increased from 41,024 to 49,500. William Kirby, while swimming in the Wabash river near Terre Haute, Ind., was drowned.

DIAMOND KING DEAD

Barney Barnato Suicides by Jumping From a Steamship.

CENTURY'S GREAT SPECULATOR

Young English Jew Who Started Life in Africa Twenty-Five Years Ago With a Trick Donkey—Dealt in Diamonds and Became Interested in the Kimberly Mines.

LONDON, June 15.—A special dispatch from Funchal, Island of Madeira, off the west coast of Morocco, says that on the arrival there yesterday of the British steamship Scot, which left Table Bay (Capetown) on June 2, for Southampton, it was announced that Barney Barnato, the South Africa "diamond king," who was among the passengers, had committed suicide by leaping overboard. His body was recovered.

The late Barney Barnato was in many respects the most remarkable speculator of the century. "Of all the Englishmen who have taken part in the development of South Africa, two only have secured a world-wide reputation. These have been Cecil Rhodes and Barnett Isaacs, more often and less respectfully styled Barney Barnato, an assumed name, for he began his life in South Africa by exhibiting a trick donkey some 25 years ago. He was then about 20 years of age.

Barnato was an English Jew and illustrated in an extraordinary way the financial genius of his race. Up to the point where his fortunes began to decline he made money by leaps and bounds and in 1895, when his good fortune was at its zenith, it was estimated that he controlled interests worth in the neighborhood of £100,000,000.

In the autumn of 1895 when the boom in Kaffirs, the shares of the comparatively new gold mines of the Transvaal, every man, woman and child in London with money invested in it in "Kaffirs." The shares went to unheard-of figures and fortunes were made in a day.

The center of this tremendous financial outburst was Barney Barnato, and he was conservatively estimated at that time as worth between \$100,000,000 and \$150,000,000. Among his assets was a bank originally capitalized at \$12,000,000. In a very few months its capital stock rose in value to \$45,000,000.

Barnato was born in London. Little is known as to his early life. He was a younger son and at the age of 20 went to South Africa, then a much more savage territory than it is now, to seek his fortune. With his few pounds of capital he began dealing in diamonds in a small way. Everything he touched he made successful. In five years he had earned enough in the retail sale of diamonds to purchase shares in the Kimberly mines, from which his merchandise had come. Before another five years had elapsed, his holdings at Kimberly had become very large, and when the Transvaal goldfields were discovered he had profits to invest in them.

In 1886 Barnato was a definite money power in South Africa and was spoken of as the rival of Cecil Rhodes. Barnato aspired only to such control of men as comes from being fabulously rich. His record in the cape legislature was quite devoid of incident. When the tremendous increase in his mining interests called for the establishment of a London branch this took the form of the Barnato bank. From that date he spent most of his time in London. He was married and had three children. His influence with Afrikaners was very great. In London where he was constantly besieged by flatterers, beggars and projectors of all sorts of enterprises he finally became quite inaccessible to all except his most intimate friends.

His private generosity was frequently expressed and in the autumn of 1896 he sent \$75,000 to the lord mayor of London for distribution among the London poor.

"I was a complete wreck," appetite gone, nervous system impaired; could not sleep, and was so weak that I could not stand on my feet ten minutes," writes Miss Ella Bartley of No. 2135 South Grant Avenue, Columbus, Ohio. "I only weighed 95 pounds when I commenced taking Dr. Pierce's Golden Medical Discovery. After I had taken a half bottle I began to improve. I could sleep soundly the whole night, and would awaken with an appetite for breakfast, which was a rare thing as I never had for two years back eaten a hearty breakfast. I now have an excellent appetite, and my friends say they never saw me looking better or in better spirits since they knew me. I tell them it is all due to Dr. Pierce's 'Discovery,' and I am so thankful and grateful that I never tire of praising his medicine every opportunity I get. I had about given up in despair, and nobody knows what those words imply, but those who have suffered like I did for two long years. I was convinced that your medicine would help me, and I am here in person, a living testimony of its merits."

For constipation, Dr. Pierce's Pleasant Pellets are a simple yet sure remedy, mild but thorough in their effect, and a permanent cure. No ordinary pills are so perfect and scientific. By all druggists.

When a boat goes over Niagara Falls, it is lost long before it reaches the edge of the falls. The danger begins in the river far above. When disease begins to sweep one along on its current, the danger has already begun.

If you are losing healthy flesh and getting below your best condition it is time to get back again without delay. The best strength-builder for people who are "running-down" is Dr. Pierce's Golden Medical Discovery.

It enables the digestive and assimilative forces to make fresh, red healthy blood which rapidly creates new tissue; no flabby fat but solid, muscular flesh, nerve force, and vital energy.

WANTED THE FUNDS.

Demanded \$5,000 From the County Treasurer, But Didn't Get It.

HAMILTON, O., June 15.—Jacob Hilzkoph, a demoted citizen of Fairfield township, walked into the county treasurer's office and demanded \$5,000 of Treasurer Sloneker. He said: "Open this vault. I will take just \$5,000 and get."

Treasurer Sloneker grabbed Hilzkoph by the neck and seat of the breeches and tossed him out of the office. This is not Hilzkoph's first offense. He has during the past week made repeated calls on the county treasury and demanded money from its vaults. A few days ago he attempted to grab a woman's money from the window as she was paying her taxes.

A Valuable Prescription.

Editor Morrison, of Worthington,
Ind., "Sun," writes, "You gave a valu-
able prescription in Electric Bitters, and
I can cheerfully recommend it for Con-
stipation and sick headache, and as a
general system tonic it has no equal."
Mrs. Annie Stehle, 2025 Cottage Grove,
Ave., Chicago, was all run down, could
not eat or digest food, had a backache
which never left her and felt tired and
weary, but six bottles of Electric Bitters
restored her health and renewed her
strength. Price 50 cents and \$1.00. Get
a bottle at W. F. Peter's drug store.

A Wholesome Soap.

Toilet soap, to be good, should be
as wholesome as good. The skin is as
sensitive as the stomach, and is as
quickly affected by impure soap as the
stomach is by unwholesome food.
With this fact in view, Alpha Cox,
the druggist, recently engaged one
of the most reliable soap makers in
the United States to prepare a special
skin soap for his trade. The soap
has been received at his pharmacy, and
it proves to be all that the proprietor desired
in so essential an article of the toilet—a pure,
perfumed soap, agreeable to the skin, and one
which, having once been used will be used
again, and cheerfully recommended to friends.
When you are purchasing toilet requisites
again, bear in mind Cox's Special Skin Soap.

The Daily and Weekly REPUBLICAN

Have no Equal for Advertising in Seymour or Jackson County.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

IMMIGRATION STATION BURNED.

Ellis Island Buildings Destroyed—No Loss of Life.

NEW YORK, June 15.—The United States government immigration station on Ellis Island, in New York harbor, was destroyed by fire this morning, but with probably no loss of life. The fire was first seen by the lookout from the harbor police station. He first noticed a flame about as big as a man's hand coming out of the window on the second floor toward the eastern end.

The fire spread rapidly and soon the eaves along the entire roof began to fall, setting fire to the wooden piers and docks on either side.

The whole island was a mass of flames, illuminating the entire inner harbor and the lower part of New York city.

The 200 immigrants were safely transferred from the island to the large office at the battery, leaving no one on the island except the firemen and a few attendants.

The buildings on Ellis Island were simply vast wooden sheds, made of the most inflammable material. The main building was 404 by 154 feet and three stories high. It was constructed entirely of pine. The first floor was devoted to the baggage room, the custom-house officers, the pens of the immigrants and the offices of the expressmen. The second floor was occupied by emigrants. It was a vast open space divided into pens by picket fences. The third floor was a gallery from which the crowds below could be inspected without coming into contact with the inspectors.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, relieves every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and a dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.

Found Choked to Death.

ANNEXATION TREATY

Hawaii to Become a Part of These United States.

WILL SOON BE SENT TO SENATE

Only One Amendment to the Sugar Schedule of the Tariff Bill Acted on—Monster Belligerent Petition in the House—Will Interfere With Landing Supplies—Postal Treaty Signed.

WASHINGTON, June 15.—A Hawaiian annexation treaty will be sent to the senate soon after President McKinley returns from his southern trip, unless present intentions are changed. The treaty was prepared and fully agreed upon before the president left for Nashville. It is on the lines of the one negotiated during the last Republican administration, and withdrawn from the senate by President Cleveland.

The present condition in Hawaii, it is said, has had much to do with favorable consideration of the treaty of annexation. The present government of Hawaii and the people who support it are very much concerned about the Japanese situation. Private information received by Hawaiians in this city is to the effect that the Japanese at any time may take some action looking to acquisition of the island. The advice officially received are of much the same tenor.

The sentiment in the senate seems to be that Japan in no way should control the islands or get foothold there. This argument has been used to prevent even notice of abrogation of the present treaty in the tariff bill. It is said that such notice might be followed by Japanese occupation and the islands could not be regained by the United States without a struggle. In this connection it is learned that the conversations among the most prominent Japanese residents of Hawaii, which have been reported to the representative of the islands in Washington, have been of a threatening character and that the American residents have more concern than has been shown in the published accounts. The officials at the state department steadfastly refuse to make any statement as to the negotiation of a treaty providing for the annexation of Hawaii and at the Hawaiian legation the same silence is observed. However, it is known that the treaty, though not yet signed, is drawn up ready for signature and as the president is fully aware of its scope there is no reason to doubt that he will authorize its signature.

In this case it is expected that the document will be sent to the senate for its action very soon, even within a week it is said in some well informed quarters. If this be the case it may be taken for granted that the president has taken steps to assure himself of a favorable reception for the treaty in the senate and to guard against such a mishap as befell the arbitration treaty last session.

FIFTY-FIFTH CONGRESS.

Lindsay Amendment to Sugar Schedule Defeated—Monster Petition.

WASHINGTON, June 15.—The senate debate on the sugar schedule of the tariff bill proceeded yesterday with only one diverting incident to relieve the monotony into which the discussion has lapsed. This was the sharp exchange between Mr. Hoar of Massachusetts and Mr. Tillman of South Carolina. Mr. Tillman again referred to published charges in connection with the sugar schedule, and asserted that the senate would stand convicted before the American people if it failed to investigate the charges. Mr. Hoar calmly and impressively impelled this statement, his tone and language being calculated as a rebuke. Mr. Pittenger of South Dakota spoke in favor of his amendment to place on the free list articles controlled by trusts. The only rollcall was on Mr. Lindsay's amendment to the tariff bill on the same basis. This was rejected, 26 to 29.

Monster Petition in the House.

The house yesterday adjourned until Thursday after a session that lasted 45 minutes. Before the session began the hub of a wheel wound round with a monster petition said to contain 6,000 signatures appealing to congress to recognize the Cuban insurgents as belligerents was wheeled into the space in front of the speaker's rostrum. It had been in circulation throughout the United States for about six months and was presented to congress by Representative Sulzer of New York.

DIAMOND KING DEAD

Barney Barnato Suicides by Jumping From a Steamship.

CENTURY'S GREAT SPECULATOR

Young English Jew Who Started Life in Africa Twenty-Five Years Ago With a Trick Donkey—Dealt in Diamonds and Became Interested in the Kimberly Mines.

LONDON, June 15.—A special dispatch from Funchal, Island of Madeira, off the west coast of Morocco, says that on the arrival there yesterday of the British steamship Scot, which left Table Bay (Capetown) on June 2, for Southampton, it was announced that Barney Barnato, the South Africa "diamond king," who was among the passengers, had committed suicide by leaping overboard. His body was recovered.

The late Barney Barnato was in many respects the most remarkable speculator of the century. Of all the Englishmen who have taken part in the development of South Africa, two only have secured a world-wide reputation. These have been Cecil Rhodes and Barnett Isaac, more often and less respectfully styled Barney Barnato, an assumed name, for he began his life in South Africa by exhibiting a trick donkey some 25 years ago. He was then about 30 years of age.

Barnato was an English Jew and illustrated in an extraordinary way the financial genius of his race. Up to the point where his fortunes began to decline he made money by leaps and bounds and in 1895, when his good fortune was at its zenith, it was estimated that he controlled interests worth in the neighborhood of £100,000,000.

In the autumn of 1895 when the boom in Kaffirs, the shares of the comparatively new gold mines of the Transvaal, every man, woman and child in London with money invested in "Kaffirs." The shares went to unheard-of figures and fortunes were made in a day.

The center of this tremendous financial outburst was Barney Barnato, and he was conservatively estimated at that time as worth between \$100,000,000 and \$150,000,000. Among his assets was a bank originally capitalized at \$12,000,000. In a very few months its capital stock rose in value to \$45,000,000.

Barnato was born in London. Little is known as to his early life. He was a younger son and at the age of 20 went to South Africa, then a much more savage territory than it is now, to seek his fortune. With his few pounds of capital he began dealing in diamonds in a small way. Everything he touched he made successful. In five years he had earned enough in the retail sale of diamonds to purchase shares in the Kimberly mines, from which his merchandise had come. Before another five years had elapsed, his holdings at Kimberly had become very large, and when the Transvaal goldfields were discovered he had profits to invest in them.

In 1896 Barnato was a definite money power in South Africa and was spoken of as the rival of Cecil Rhodes. Barnato aspired only to such control of men as comes from being fabulously rich. His record in the cape legislature was quite devoid of incident. When the tremendous increase in his mining interests called for the establishment of a London branch this took the form of the Barnato bank. From that date he spent most of his time in London. He was married and had three children. His influence with Afrikaners was very great. In London where he was constantly besieged by flatterers, beggars and projectors of all sorts of enterprises he finally became quite inaccessible to all except his most intimate friends.

His private generosity was frequently expressed and in the autumn of 1895 he sent \$75,000 to the lord mayor of London for distribution among the London poor.

When a boat goes over Niagara Falls, it is lost long before it reaches the edge of the falls. The danger begins in the river far above. When the danger begins to sweep any one along on its current, the danger has already begun.

If you are losing healthy flesh and getting below your best condition it is time to get back again without delay. The best strength-builder for people who are "running down" is Dr. Pierce's Golden Medical Discovery.

It enables the digestive and assimilative forces to make fresh, red healthy blood which rapidly creates new tissue; no flabby fat but solid, muscular flesh, nerve force, and vital energy.

"I was a complete wreck; appetite gone, nervous system impaired; could not sleep, and was so weak that I could not stand on my feet ten minutes," writes Miss Ella Bartley, of No. 2135 South Grant Avenue, Columbus, Ohio. "I only weighed 95 pounds when I commenced taking Dr. Pierce's Golden Medical Discovery. After I had taken a half bottle I began to improve. I could sleep soundly the whole night, and would awaken with an appetite for breakfast, which was a rare thing as I never had for two years back taken a hearty breakfast. I now have an excellent appetite, and my friends say they never saw me looking better or in better spirits since they knew me. I tell them it is all due to Dr. Pierce's 'Discovery,' and I am so thankful and grateful that I never tire of praising its medicinal every opportunity I get. I had about given up in despair, and nobody knows what those words mean, but those who have suffered like I did for two long years. I was convinced that your medicine would help me, and I am here in person, a living testimonial of its merit."

KILLED BY LIGHTNING.

Three Young Ladies Killed Instantly and Another Will Die.

JACOBURG, O., June 15.—Minnie McGuire, daughter of the Rev. Thomas McGuire; Alpha Taylor, daughter of William Taylor; and Emma White, daughter of Simon White, all aged about 19, were struck by lightning and instantly killed, and Sarah Bohring was so badly stunned that it is thought she will die. The young ladies were on the street on their way to the M. E. church. It is believed that the steel stays in their corsets were the chief cause. Miss Bohring, who was only stunned, wore none.

GENERAL CLAY.

Aged Veteran Says the Country is on the Verge of a Revolution.

RICHMOND, Ky., June 15.—General Cassius M. Clay, ex-minister to Russia, and famed as a soldier, statesman, diplomat and sage, in a recent published interview here, says he believes the United States is on the verge of a great revolution, a revolution of the idle and unemployed against property owners. The spirit of nihilism, he says, which seems to be rampant in the land will, unless checked, bear a rich harvest of calamity and disaster before the 30th century is far advanced.

Decision in Favor of the Postmaster.

FRANKFORD, Ky., June 15.—In the United States court yesterday Judge Barr rendered a decision in the case of Hoover, secretary of the Southern Mutual Investment company of Lexington against Postmaster McChesney. He holds that the order of Postmaster General Wilson to withhold the mail directed to said company was properly withheld by Postmaster McChesney, but present mail to said Hoover should not have been withheld.

LUTHERAN SYNOD.

Statistical Secretary's Report Shows a Falling Off in Subscription.

MANFIELD, O., June 15.—The delegates to the Lutheran synod have now become thoroughly acquainted with the business on hand and President Hamma is frequently compelled to call for order during the session so animated do the discussions become. His raps with the gavel and a sternian, "There's trouble in the amen corners," never fail to cause a ripple of laughter to break over the synod and restore order. Yesterday the report of Statistical Secretary Rev. W. S. Himm of Columbia, Pa., was considered. The depressed financial condition of the country has made a falling off in the benevolent contributions, but at the same time there has been an increase in the membership in the churches and Sunday schools. Reports were also received from the board of supplies and the committee on Sunday schools.

REFORM LAWS.

Report of the W. C. T. U. Officers on Moral Emancipations.

CHICAGO, June 15.—The national W. C. T. U. officers have issued a report regarding the work of the various state legislatures in sessions this year, and from it it is taken: Legislation in reform measures has been quite gratifying. Illinois passed a police matron bill, to apply to cities of over 16,000 inhabitants; also a stringent temperance education bill and a cigarette bill. Minnesota passed a bill prohibiting the admission of any one under 21 years of age to dancehous, concert saloons or any place where intoxicating liquors are sold or given away. The Iowa legislature made liquor bills incolectable. Tennessee, Massachusetts, Kentucky, Connecticut and Indiana passed strong anti-cigarette laws.

FIRE AND EXPLOSION.

Two Combined Nearly Wipe Auburn, Cal., Out of Existence.

ACBURN, Cal., June 15.—The business portion of Georgetown, a mining town in Eldorado county, was burned to the ground yesterday. The fire originated in the middle of the main block and spread both ways, burning everything from the American hotel to the Water company's office. Just after the fire had run its course there was a terrific explosion of grain powder. Mrs. William Newell was instantly killed and Mrs. McLain seriously injured. Many others received slight injuries. As a result of the shock every window in the residence portion was broken and all the business buildings which had not been wholly destroyed by the fire were leveled to the ground.

WANTED THE FUNDS.

Demanded \$5,000 From the County Treasurer, But Didn't Get It.
HAMILTON, O., June 15.—Jacob Hilkoph, a demented citizen of Fairfield township, walked into the county treasurer's office and demanded \$5,000 of Treasurer Sloneker. He said: "Open this vault. I will take just \$5,000 and get."

Treasurer Sloneker grabbed Hilkoph by the neck and seat of the breeches and tossed him out of the office. This is not Hilkoph's first offense. He has during the past week made repeated calls on the county treasury and demanded money from its vaults. A few days ago he attempted to grab a woman's money from the window as she was paying her taxes.

Sick Headache.

Neuralgia and Extreme Nervousness.

EVER since I was eighteen years old until I learned of Dr. Miles' Restorative Remedies, I suffered from sick headache and extreme nervousness and dyspepsia. In time heart disease developed. I was treated by several doctors with no relief. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nervine and New Heart Cure and took them alternately as directed. Improvement began at once and increased so rapidly that inside of six months I increased thirty six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me."

S. W. SHIELDS, Sec'y.

WHEN Queen Victoria learns that some of her upstart statesmen have turned "the Grand Old Man" down she will likely make a remark and teach them a needed lesson.

GOVERNOR JONES, of Arkansas refuses to take any notice of the gold mining convention because "there is no silver in it." His prejudice is such that he would not accept a gold headed cane without a silver ferule.

In Sundays Courier-Journal is found a creditable account of the life and work of W. W. Pfimmer, the Kanakee poet, whose home is at Kentland, Indiana. Mr. Pfimmer has many admiring friends throughout this part of state. His book of poems, "Driftwood," is found in many of their libraries.

"GENERAL WEYLER will be recalled," "General Weyler will not be recalled"—you can take your choice. But in the meantime it makes but little difference whether he stays or goes. His Spanish officers will continue to carry out Weylerism, and many of them are even more brutal than Weyler.

The Columbus Herald observes that the "populists intend to hold a convention of their own at North Vernon, which shows that they do not intend to support Mr. Griffith." The Herald, as a middle-of-the-road democrat paper, says it is glad of it. That the democrats "do not desire to be united with them again in a campaign." The Herald probably does not desire to affiliate with the populists, for it once stood out squarely against populism, yet some of the leading democrats of the district are laboring diligently to prevent the populists putting a candidate in the field.

SOLDIERS' HOME INVESTIGATION.

The result of the investigation by the state board of charities into the management of the state soldiers' home is just what every one who was acquainted with conditions there had reason to expect. It was found to be what it was intended, namely, a comfortable, well managed refuge for veterans and their wives. So many foolish rumors grew out of the recent drunken assault upon the commandant that it was well to dispose of them by official authority: now that this has been done, the old soldiers and others who take an interest in the institution need have no further doubt that it is fulfilling its mission.—Journal.

EUGENE V. DEBIS has a new scheme. He has outlined a plan for the organization of a co-operative commonwealth, which he is just now spending his time talking about.

WANDERING WILLIE, of Nebraska, and Arthur Sewall, the richest man in the state of Maine, dined together at Washington Sunday with Senator James K. Jones. Wandering Willie is still a candidate, but the Maine man may safely be classed among the ex-candidates.

DELAWARE has just adopted a new constitution. Among its provisions is one on suffrage, which provides that on and after January 1, 1900, no person otherwise qualified, shall be permitted to vote in that state unless he is able to read the Delaware constitution in the English language.

The editor of the North Vernon Sun can't get over the disappointment that came to him over the defeat of Mr. Overmeyer. He said at Columbus that the democratic newspapers of the district would do little more for Griffith than place his name at the head of their editorial columns.

TEX days after the nomination of Marion Griffith, at Columbus, the Evening News, of this city, came out in an editorial for the nominee. Our neighbor was for Overmeyer and felt defeat so keenly that it took several days to recover. It seems a little odd that so many of the popocratic papers in the district are affected in the same manner.

A. H. Patter, with E. C. Atkins & Co., Indianapolis, Ind., writes: "I have never before given a testimonial in my life. But I will say that for three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely. It is all right, and anyone who tries it will find it so." For sale by C. W. Milhous.

Free Trade and Free Wool in Evidence.
The Stearns woolen mills, that for
years was one of Peru's chief indus-
tries the output of which has a national rep-
utation, will be sold in a few days at
public auction. The plant, in its palmy
days, was worth \$60,000, but it is doubt-
ful if half that sum will be realized.
Here is a evidence of what free trade
and free wool has done for Peru—
Wabash Tribune.

The best friend of mothers and nurses

Mr. Isaac Horner, proprietor of the
Burton House, Burton, W. V., and one
of the most widely known men in the
state was cured of rheumatism after
three years of suffering. He says: "I
have not sufficient command of language
to convey any idea of what I suffered,
my physicians told me that nothing
could be done for me and my friends
were fully convinced that nothing but
death would relieve me of my suffering.
In June, 1894, Mr. Evans, then sales
man for the Wheeling Drug Co., recom-
mended Chamberlain's Pain Balm. At
this time my foot and limb were swollen
to more than double their normal
size and it seemed to me my leg would
burst, but soon after I began using the
Pain Balm the swelling began to de-
crease, the pain to leave, and now I
consider that I am entirely cured. For
sale by C. W. Milhous.

spected citizen, and a favorite with all
that knew him. His age was thirty
years. His brother, John Strausberger,
of Purcell, Indian Territory, left this
morning for San Antonio and will bring

A Valuable Prescription.
Editor Morrison, of Worthington,
Ind., "Sun," writes, "You gave a valua-
ble prescription in Electric Bitters, and I
can cheerfully recommend it for Con-
stipation and sick headache, and as a
general system tonic it has no equal."
Mrs. Annie Stehle, 2025 Cottage Grove,
Ave., Chicago, was all run down, could
not eat or digest food, had a backache
which never left her and felt tired and
weary, but six bottles of Electric Bitters
restored her health and renewed her
strength. Price 50 cents and \$1.00. Get
a bottle at W. F. Peter's drug store.

A Wholesome Soap.
Toilet soap, to be good, should be
as wholesome as good. The skin is as
sensitive as the stomach, and is as
quickly affected by impure soap as
the stomach is by unwholesome food.
With this fact in view, Alpha Cox,
the druggist, recently engaged one
of the most reliable soap makers in
the United States to prepare a special
skin soap for his trade. The soap
has been received at his pharmacy, and it
proves to be all that the proprietor desired in
so essential an article of the toilet—a pure,
perfumed soap agreeable to the skin, and one
which, having once been used will be used
again, and cheerfully recommended to friends.
When you are purchasing toilet requisites
again, bear in mind Cox's Special Skin Soap.

John B. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John B. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

Read! Read! Read!

REASONS why you should read the Cincinnati Daily
